### ABSTRACK

**Background:** Organizing the body from preparing, bathe, obedient, transmitted, brought to the grave until burial is a religious order directed to the Muslims as a community group. All acts of worship must be done with knowledge, so learning the knowledge of the rules of organizing the treatment of corpses is fardhu kifayah. Along with the increasing incidence of sexually transmitted diseases such as HIV AIDS in Indonesia in 2017 in East Java 35,168 people died. Even though people in Greenview Regency currently do not have HIV AIDS as a preventive and knowledge-enhancing effort for the cadre of body care about the screening of the body of the ODHA, the team and I are interested in doing community service in RW 14 with the title "Skill Training Care Of Maintenance Corpse With Infectious Disease For Cadre In RW 14 Greenview Regency Malang".

**Aim:** Conduct training on the treatment of corpses with infectious diseases for cadres of the management of the body in RW 14 Greenview Regency Malang.

**Results:** A cadre has been formed to organize the body in RW 14 Greenview Regency Malang. Overall cadres who have been formed have understood how to treatment bodies with infectious diseases in each of its steps as evidenced by the overall cadre has tried to do the treatment of corpse care with infectious diseases.

**Conclusion:** From the community service activities in RW 14 Perum Greenview Regency, cadres have been formed, the management of corpse care and cadres of administrators have been able to practice properly the management of corpses with infectious diseases.

**Recommended:** the results of community service are recommended for people who care for bodies with infectious diseases and students in the subject of palliative care.

**Key Word:** cadres manager, management of corpses, infectious diseases

## **BACKGROUND**

Organizing bodies ranging from preparing, bathing, caressing, shaming, bringing to the grave to burying is a religious command aimed at the Muslims as a community group. If the order has been done by some of them properly, then the obligation to carry out the order has been completed. Such obligations in religious terms are called fardhu kifayah. All acts of worship must be done with knowledge, so learning the knowledge of the rules of organizing the treatment of corpses is fardhu kifayah. Along with the increasing incidence of sexually transmitted diseases such as HIV AIDS in Indonesia in 2017 in DKI Jakarta province 48,502 people died, East Java 35,168 people died, Papua 27,052 people died, West Java 26,066 people died, Central Java 19,272 people died and Bali 18,783 people died. The incidence of HIV AIDS in Malang includes Purwatoro, Sukun, Lowokwaru, Jodipan, Sawojajar, Bunulrejo, Pandanwangi, Gadang, Dinoyo, Klojen, Singosari and Karangploso subdistricts. The Greenview Regency housing is located in Turi Rejo Village, Karangploso Subdistrict, Malang Regency, although there are no people living in greenview regency who experience HIV AIDS as a preventive and knowledge-enhancing effort for the cadre of cadavers about the placement of ODHA so I and the team are interested in serving the community in RW 14 with the title "Skills Maintenance Training of Corpse with Infectious Diseases for cadre in the RW 14 of Greenview Regency Malang" considering HIV AIDS is a deadly disease.

## **METHODOLOGY**

Methods in community service activities by forming cadres in the management of corpse care in the neighborhood of RW 14 Perum Greenview Regency Malang and conducting training procedures for the treatment of corpses with infectious diseases.

## **RESULTS**

Cadres have been formed in the management of corpse care in the neighborhood of RW 14 Perum Greenview Regency Malang and the entire cadre of administrators of the maintenance of corpses in the neighborhood of RW 14 Perum Greenview Regency Malang have each tried treatment of corpses with infectious diseases.

## **CONCLUSION**

With the implementation of community service activities with the title "Body Care Skills Training with Infectious Diseases for Cadre administrators of Organizing Bodies in RW 14 Perum Greenview Regency Malang" it can be concluded that there has been a transfer of knowledge from the community service team to partners and assisted partners in overcoming problems that occur.

## **ACKNOWLEDGEMENT**

The author would like to thank Widyagama Husada Science Collage who has provided funds in community service activities, Mr.Toha, Mr.Mundir, My Student (Ferosina, Halimah, Dodo, Olive, Wina) that assists in the implementation of community service activities, RW 14 Perum Greenview Regency has been pleased as a partner, community leaders who have been willing to give permission in the implementation community service activities.
