Dengan judul: H5J (Hypnotic 5 Fingers) Mobile Application For Reduce Anxiety Problems
Chemotherapy Patient

Submit

The screenshot shows the 'Production' stage of the submission process. The article title is 'H5J (Hypnotic 5 Fingers) Mobile Application For Reduce Anxiety Problems Chemotherapy Patient' by Eky Madyaning Nastiti, Ahmad Guntar Afrianto, and Peri Ekaprosessa. The submission files table lists two files: 'ekymadyaning_artikel wajib.doc' (uploaded Sept 13, 2021) and 'yuliat01_327-File Utama Naskah-1156-1-2-20210913.doc' (uploaded Sept 14, 2021). The 'Pre-Review Discussions' table shows a comment from 'ekymadyaning' on 2021-09-13 and an editorial assignment from 'journal' on 2021-09-14. On the right, there are buttons for 'Send to Review', 'Accept and Skip Review', and 'Decline Submission', along with a list of participants including Yulia Chandra Lestari and Eky Madyaning Nastiti.

Review

The screenshot shows the review form for the article. The reviewer is 'Dini Prastyo Wijayanti'. The review is completed on 2021-10-05 09:22 AM. The recommendation is 'Accept Submission'. The review questions and answers are: 'Introductions: Is there any novelty in this study (Seen in the Introduction)?' (Yes), 'Did the researcher introduce the topic clearly in the background?' (Yes), and 'Do researchers associate with the latest knowledge?' (Yes). The interface includes a sidebar with navigation options like 'Round 1 Status', 'Review Files', 'Reviewers', 'Revisions', and 'Review Discussions', and a right sidebar with 'Upload/Select Files', 'Request Reviews', 'Add Reviews', and 'Participants'.

Do researchers associate with the latest knowledge ?

Does the researcher explain what has been done and what needs to be done in the introduction ?

Did the researcher introduce the purpose of the research ?

Does the researcher present the results in graphical or numerical form ?

Are there multiple interpretations of data in the results section ?

Did the researchers answer the research problem in the discussion ?

Review Details: H5J (Hypnotic 5 Fingers) Mobile Application For Reduce Anxiety Problems Chemotherapy Patient
