**PISANG GEN ALFA: Smartphone
 Application for Mental Health Families of
 Alpha Generation in Indonesia**
 Ahmad Guntur Alfianto¹, Feri Ekaprasetia²

Abstract Families with alpha generation in the industrial era 4.0 have problems in mental health care, however, effortare made to prevent the occurrence through health education. The prevention model in the industrial revolution era 4.0 used a mobile application on a smart phone. PISANG GEN ALFA is a smartphone application that contains the method of parenting, assertive care, and stress management. The purpose of this study is to develop PISANG GEN ALFA as an application for reducing mental health problems in families with alpha generation. The
